Associate Professor, College
of Social Sciences and
Communication, University of
Arkansas at Little Rock

Message from the Editors-in-Chief

Welcome to *Genealogy*, an open access journal regarding the analysis of genealogical narratives. We are dedicated to research that related to family lineage, family relationships, gender, parenting, migration histories, social identities, and social institutions. Various genres, such as specialized research articles, reviews, communications and other creative projects, are welcomed. Manuscripts containing original, creative research ideas are especially appreciated.
